John Doe

KP Acoustics Ltd.

By email to:

Dear

00005: 66 Leicester Road, RM15 8JD, AVELEY, UK

Further to your recent enquiry, we are pleased to present you with our scope of work and fee proposal for the above project.

A. Report Review

We would review the existing report and any accompanying relevant information in order to identify any potential issues or discrepancies relating to the methodology or findings.

This includes both reading/commenting on the existing report, and any plans, proposals, mitigation measures, and calculations provided with the existing assessment.

Once the review is completed, a summary letter report would be produced, detailing the findings of the review, in addition to any alternative findings or suggestions based on the available existing information.

B. Fee Proposal

Our professional fees for carrying out the above scope of work would be based on our standard hourly rate of **£120.00 per hour (+VAT)**.

It is anticipated that the report analysis and subsequent summary report would require not more than **XXXXX hours**.

This fee is exclusive of VAT, which would be charged at the current rate. Payment should be made within a 30 day period after issue of our invoice which would be done after the completion of our site visit. Payment would be required to clear prior to the release of our technical report, unless otherwise agreed in writing.

Please note that this scope of work reflects the time for desktop office work, commensurate to the type and size of the project. Any additional visits will be charged at our hourly rate of £120.00 per hour (+VAT), and additional meetings charged at £650.00 (+VAT). Additional site visits or meetings will only be undertaken with prior approval from yourselves.

The above fees include one (1 No.) revision of the report. Additional fees may be applied based on our hourly rate of £120.00 (+VAT), should further amendments be required.

Additional fees for commuting to and from the site may be applied as per our hourly rate of £120.00 (+VAT) in the instance of an abortive site visit, where circumstances are within the control of the Client. These would include, but are not limited to: access to the site not being possible at the time of visit, the site not being in a suitable state for any acoustic measurements, or the site being deemed to be insecure at the time of visit. Please see our instruction form for further clarifications.

Please note that the above fee proposal is valid for a period of 12 months from the date of issue. Hourly fees are revised at the beginning of every calendar year, which may result in incurring an additional charge, depending on when a revised report is requested.

Should you wish to proceed as per this proposal, please complete and return the acceptance form attached.

We trust this is sufficient for your requirements. Should you have any questions, please do not hesitate to contact us.

Yours Sincerely,

George Hadjilambri AMIOA

KP Acoustics Ltd.
